

## LUBMARINE PRODUCTS

### ENGINE OIL

<b>PRODUCTS</b>	<b>DESCRIPTION</b>	<b>APPLICATIONS</b>
<b>System Oil</b>	<b>ATLANTA MARINE D3005</b>	Low speed cross-head engines. Lubrication of bearings, oil piston cooling.
<b>Cylinder Oil</b>	<b>TALUSIA HR 70</b>	Designed to lubricate liners and rings in cross head diesel engines with high firing pressure.
<b>Cylinder and Motor Oil</b>	<b>DISOLA M</b>	The ranges of M4015 and M3015. Lubrication of shaft bearings and stern-tubes
	<b>DISOLA DD40</b>	Lubrication of turbo-charged diesel engines running under severe condition. Good for transmission converters.
	<b>DISOLA W</b>	Lubrication of diesel engines whether turbo-charged or naturally aspirated. Suitable for lubrication of petrol engines
	<b>DISAL CF 113F</b>	Detergent oil for diesel engines built by the electro motive division of general motors
	<b>AURELIA XL 4030 and 4030</b>	Lubrication of medium-speed engines, running on heavy fuel oil with high sulphur content, reduction gear lubrication

### GREASE

<b>PRODUCT</b>	<b>DESCRIPTION</b>	<b>APPLICATIONS</b>
<b>Grease</b>	<b>CERAN AD,CERAN WR2 MULTIS EP 2</b>	Lubrication of open gears and wire ropes operating under the severest condition.

## AUXILIARY OIL

<b>PRODUCT</b>	<b>DESCRIPTION</b>	<b>APPLICATIONS</b>
<b>Auxiliary Oil</b>	<b>VISGA RANGES</b>	<b>VISGA 46, 68, 100, 32.</b> All have various roles they play to satisfy wide temperature variation and viscosity ranges encountered with modern hydraulic systems. Used in all hydraulic equipments operating in extreme temperatures like steering gears, remote control system.
	<b>EPONA Z RANGES</b>	<b>EPONA Z 150,100,220,320,460.</b> They are extreme gear oils suitable for all bearings, gears which require “extreme pressure lubricant. Deck machinery, elevators are typical places of application

## OTHERS

<b>PRODUCT</b>	<b>DESCRIPTION</b>	<b>APPLICATIONS</b>
<b>Others</b>	<b>DACNIS P RANGES</b>	Mineral oil air compressors for heavy duty turbo-charged engines
	<b>BARELF RANGES</b>	<b>BARELF CH 100 AND 68</b> are synthetic air compressors for vacuum pumps and rotary screws of heavy duty turbo-charger engines.
	<b>BARELF AL RANGES</b>	<b>BARELF AL100 AND 150</b> are synthetic oil for refrigerating compressors.
